NEMO® 2.0 60 M

MONOKRISTALLINES PV-MODUL

Made in Germany · Alle NeMo® Module werden mit modernster Technologie am Standort Chemnitz gefertigt.

Leistungsoptimiert · Modul-Design entwickelt mit der Software SmartCalc.CTM.

Nachhaltig · Unsere NeMo® Module werden mit Strom aus den eigenen PV-Anlagen und zugekauftem Ökostrom hergestellt.

MONOCRYSTALLINE PV-MODULE

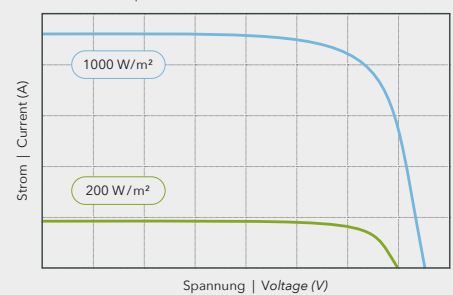

Made in Germany · All NeMo® modules are manufactured with the latest production technology in Chemnitz, Germany.

Optimized performance · Module design created with the innovative SmartCalc.CTM Software.

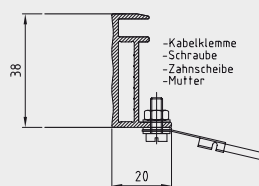

Sustainable · Our NeMo® modules are manufactured with electricity from our own PV plants and additionally acquired green electricity.

I-U Kennlinien | I-V characteristics — STC — LIC

überreicht durch: | *handed out by:*

Standard Test Conditions STC: Irradiation 1,000 W/m² with a spectrum of AM 1.5 at a cell temperature of 25°C. Maximum reduction in efficiency at 200W/m²: 2%. NMOT-Data: Nominal Module Operating Temperature at irradiation 800W/m² and an ambient temperature of 20°C. Operating temperature range between -40°C and +85°C. All dimensions: +/- 3 mm. Measurement tolerances: PMPP +/- 4%, UOC/ISC +/- 10%. Subject to technical alterations. No liability is assumed for particulars. * Third mounting rail required - please follow our installation instructions.
